## 4. Changes

This version is a major release of Estos MetaDirecotry, which is fully compliant to SwyxWare, SwyxIt! and Visual Contacts in version 12.00 and newer. Swyx also guarantees the support of this Estos Meta Directory Version with SwyxWare 11.50 or newer.

Main changes of Estos Meta Directory V5.0.7.10657 can be found here:

<https://support.estos.de/de/release-notes/metadirectory-5-0-enterprise-release-notes>

## 5. Supported Products

Type	Product	Preferred Version
Server	SwyxWare	12.x tested with SwyxWare 12.12 / 12.20
Client	SwyxIt!	12.x
DECT	Swyx DECT 500 Swyx DECT 800	

We recommend customers use the "Preferred Version" for the given products. The preferred software versions offer tested and confirmed level of functionality. However, the devices might also operate with older or newer software version with the caveat that recently added interoperability or advanced features may not be possible when using these versions. In cases, if a defect is found when using other versions, it may be necessary to update to the supported version.

## 6. System Requirements

System Requirements can be found here:
